### **Boil Water Advisory Still in Effect**

King County Water District #54 announced that the boil water advisory is still in effect as of Monday, September 23, 2013, and will remain in effect until further notice. Bottled water continues to be available at the District's offices at 922 South 219<sup>th</sup> Street, Des Moines.

Within the next twenty-four to thirty-six hours, the District hopes to have enough information to allow it to determine when the boil advisory can be lifted and businesses in its service area can re-open. The District is working with the Department of Health and other community partners to implement a plan to lift the advisory as soon as possible. The plan includes continued short-term chlorination of the water along with flushing of the system and increased frequency of water quality testing.

Customers and businesses can call the District's offices at 206-878-7210 for additional information or check the City of Des Moines website [www.desmoineswa.gov](http://www.desmoineswa.gov) or the City's government channel 21 for information regarding the situation.

The District serves customers in the core of Des Moines and the far south section of Normandy Park in an area from Puget Sound east to 13<sup>th</sup> Avenue South and Kent-Des Moines Road north to South 212<sup>th</sup> Street.
